SavedMovieFilterSorter
domain:
SavedMovieSortOption
:SavedMovieAdapter
Scenario: Filter by Status & Sort by Rating
1 selectStatusFilter(WatchStatus.WATCHED)
2 applyFilterAndSort()
3 selectSortOption(RATING_DESC)
4 filterAndSort(allMovies, WatchStatus.WATCHED, "Inter", RATING_DESC)
5 filterByStatus(allMovies, WATCHED)
6 filterBySearchQuery(statusFiltered, "Inter")
7 getComparator(RATING_DESC)
Uses pure Java 21 Comparator:
Comparator.comparingDouble(rating).reversed()
.thenComparing(COMPARATOR_TITLE_ASC)
8 filteredList.sort(comparator)
9 sortedFilteredMovies
10 setMovies(sortedFilteredMovies)
11 notifyDataSetChanged()
12 renderFilteredList(matchedMoviesCount, orderedCards)
